We provide information on your fiscal obligations and assist you with preparing and submitting your taxes.

LEGAL ADVICE

We help you with the purchase or sale of, and any legal documents pertaining to your property, as well as with any legal issue that may arise in Spain. Anticipating a problem is the best way to avoid it.

WILLS

We will advise and assist you in the granting of your will. We strongly advise that you grant a will in Spain. This will ensure that any potential problems for your future heirs are avoided. Please remember that you have the right to ask that the national law of your country be implemented, rather than Spanish law.

INHERITANCE

We will guide you in all the procedures surrounding inheritance, and with the payment of inheritance tax.

We have contacts with the most prestigious and professional estate agents. We offer an impartial and independent co-ordination and supervision service through the process of the sale or purchase of your home or business, in order for you to have maximum profitability and efficacy.

TECHNICAL SERVICES FOR PROPERTIES

Our architects can help you with matters of design, with projects, and with the technical reports that you will require for the legalisation or construction of your property.
